Travax is an invaluable resource for travel medicine professionals.

Use it with CONFIDENCE: Travax information comes from an extensive sifting process by full-time medical experts, epidemiologists, and professional editors who identify quality data and use it to create actionable risk assessments and preventive recommendations delivered in an easy-to-use format.

Love its CONVENIENCE: Having a continuously updated library of travel medicine literature and teaching sheets and a collection of country-specific profiles for nearly 240 countries and territories in one location can save you a lot of time as you prepare for a travel consultation. Using Report Builder, you can produce a comprehensive counseling report for a traveler with a typical multi-country itinerary in less than a minute.

Licensing

Travax is a web-based application you access using a browser on your computer or mobile device. It is licensed on a per-site basis. A site is defined as the location, such as a medical clinic or office, where the health care practitioner sees patients. All practitioners at a licensed site may access Travax.

The annual site license fee is USD \$975.00. Discounts are available for multiple site licenses when purchased as part of a single coordinated order.

Free 30-day trial subscription

If you want to fully understand the value Travax brings to you and your travelers before purchasing a subscription, ask for a free 30-day trial. You will have access to all Travax features and content during your trial, and our sales team can arrange a telephone walk-through orientation to get you started. Complete the request form below and submit it to Shoreland to get started.

Request Form

Submit your completed form to Shoreland using the email address or fax number below, or call a sales representative at the numbers listed to make your request.
